polyvinyl chloride (PVC)

Characteristics
- non-porous surface with antibacterial additives (prevents fungal growth)
- resistant to oils and animal fats
- two-layer extra wide grid construction, consisting of non-porous PVC
- resistant to oils and chemicals in case of short-term exposure (please request a test sample)
- excellent drainage
- temperature-resistant (–23 °C to +60 °C)
- good ergonomic properties
- 100 % recyclable

Cleaning Instructions
High pressure cleaner or industrial dry vaccum cleaner are ideal for an accurate cleaning. For a simple and quick cleaning you can also wash it down with water or simply sweep it off.

Installation
Aids, which are needed for laying: box cutter, meter rod/measuring tape. Fixing or gluing is not necessary.
