

YOGA FLAT ULTRA

Due to the elastic rubber with hard granite YOGA FLAT ULTRA is a robust workplace mat with an excellent environmental sustainability.

Sizes:

120 cm × max. 15 m

Thickness: 2 mm

Hardness: 92 Shore A

Surface:

smooth, closed

Material:

natural rubber with granite sprinkling

Fire behavior:

Bfl-s1 (EN 13501-1)

Slip resistance:

normal / R10 (51130)

Characteristics

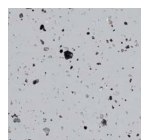

- can be used in two ways: as a protection for the table or floor (compatible with floor heating systems and castor chairs)
- the mat has the effect of an optical depth due to the granite sprinkling, which makes YOGA FLAT ULTRA an eye-catcher (reddot design award winner)
- environmentally friendly: free of PVC, phthalate plasticizers and halogens
- very low emissions contribute to healthy indoor air
- increased safety thanks to high fire-retardant properties
- chemical resistance depending on the concentration and exposure time (please request a test sample)
- contributes to more pleasant room acoustics (high footfall sound absorption: 6–8 dB)
- made in Germany

Cleaning Instructions

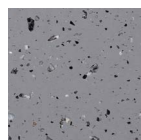

YOGA FLAT ULTRA is to be wiped dust-binding (with a microfiber mop). For wet wiping, make sure not to use cleaning agents with a pH value above 12.

Installation

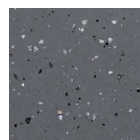

Adapt the material to the room temperature. Note the direction of the arrow on the back side and place it in the same direction. Then stick with a dispersion adhesive.
