

YOGA DECK SPARK

Fireproof and sustainable rubber mat, consisting of two layers, especially for use in welding workplaces.

Sizes:

60 cm × 90 cm
90 cm × 150 cm
90 cm × max. 22,86 m

Thickness: 10 mm

Weight: 5,8 kg/m²

Surface:

orange-peel texture,
closed

Material:

natural rubber (NR)

Slip resistance:

good / R10 (DIN 51130)

Characteristics

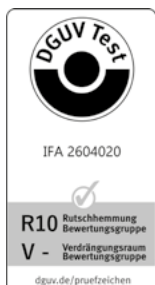

- the surface is comparable with an orange peel in terms of appearance and feel, the bottom of the mat is made of foamed rubber, which provides a physiologically correct suspension
- 100 % natural rubber
- the mat absorbs noise and reduces the impact sound level in areas of use
- beveled edges on all sides reduce trip hazards
- also provides excellent insulations against cold floors
- can be adapted to individual shapes
- the workplace mat is slip resistant and lies absolutely flat on the ground

Cleaning Instructions

Simply sweep it off with a broom and wipe it with a moist cloth afterwards.

Installation

The mat does not require extra fixing. For roll goods: easy to cut into shape. All you need is a carpet knife, a metal ruler and all-purpose scissors.
