

YOGA HOLZ ROST

Natural product made of robust wood. For dry or wet areas where a lot of machining waste is generated. Available in two versions, made in Germany.

Beech wood, type B

Beech wood dark, type F

Sizes:

80/100 cm × max. 5 m
120/150 cm × max. 5 m
Special sizes on request

Thickness: 35 mm (standard)
45/55/70/100 mm
(special height)

Weight: 15,1 kg/m²

Surface:

ribbed

Material:

beech wood

Slip resistance:

very good / R11 (DIN 51130)

Displacement space:

V10 (DIN 51130)

Characteristics

- ideal for machining workstations, e. g. around milling and cutting machines and CNC centres, because metal and wood chips fall through
- very robust mat (individual wooden strips connection via PVC-coated steel cable, the closure is made of galvanized threaded bolts)
- available in two versions: **beech wood** is resistant to oil, petrol and most chemicals and **beech wood dark** specially treated, which increases resistance to liquids and dirt (please request a test sample). Additionally available as type B (without ramps) or type F (two ramps for each short side and a bevel on the long side)
- relieves all muscles due to rubber pads on the bottom
- thanks to claw connections large areas can be produced
- optimal safety at work due to yellow access wedges (version HOLZROST beech wood dark, type F)
- type F allows access with industrial trucks

Cleaning Instructions

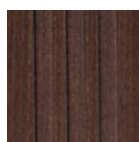

Dry vacuum cleaner are ideal for an accurate cleaning. For a simple and quick cleaning you can simply sweep it off.

Installation

Fixing or gluing is not necessary. YOGA HOLZROST can be easily rolled up, making it easy to clean the subfloor. Fixing or gluing is not necessary.
