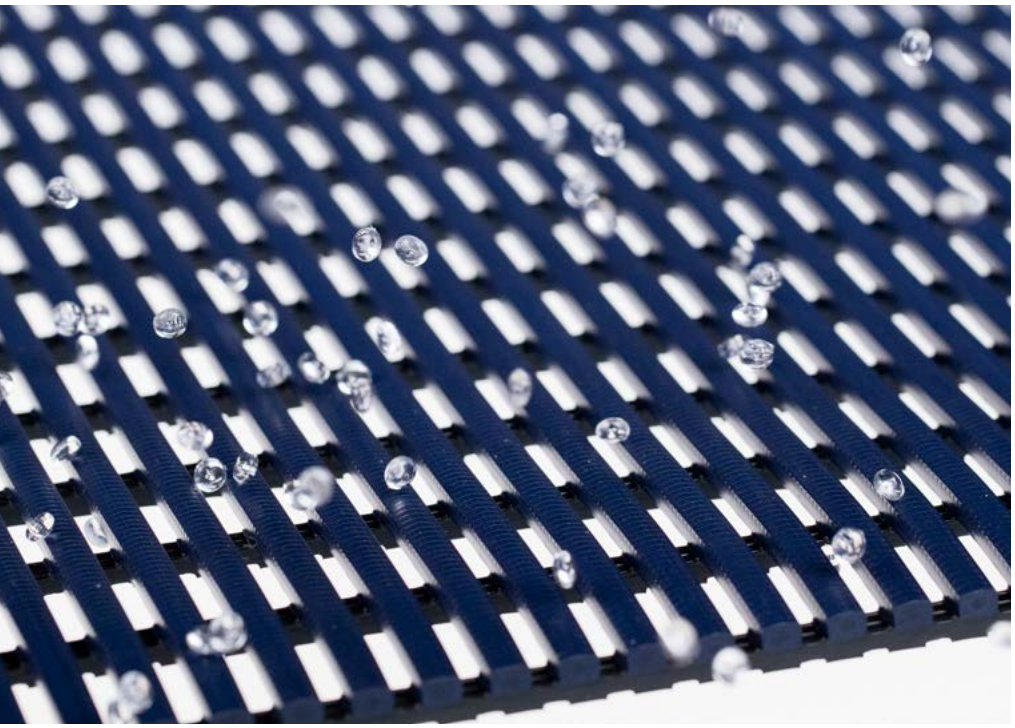
YOGA SPA ULTRA

Ideal for dry, humid and wet areas for intensive use (inside and outside).
Can be used in showers, changing rooms, in front of swimming pools, in gyms, saunas and whirlpools.



Sizes:
50 cm × max. 10 m
100 cm × max. 10 m

Thickness: 10 mm
Weight: 5,5 kg / m²

Surface:
grid-like structure, profiled, perforated
Material:
polyvinyl chloride (PVC)

Slip resistance:
DIN 51097 C
Accessories:
connectors

Characteristics

- excellent drainage system for barefoot areas: the two-layer grid structure allows liquids to drain in all directions – no problem even with large amounts of water
- due to antimicrobial and antifungal additives YOGA SPA ULTRA meets high hygiene standards
- YOGA SPA ULTRA can be extended in width and length as desired with the help of connecting clips
- the profiled surface provides strong grip, is therefore sure-footed and non-slip
- resistant to UV-rays (except red), most oils as well as alkalis and acids (please request a test sample)
- non-porous material and impact sound absorbing
- temperature-resistant (–23 °C to +60 °C)

Cleaning Instructions
In order to avoid damage, YOGA SPA ULTRA should be rolled up during cleaning. Sweeping/wiping with (alkaline) cleaning agent is sufficient.

Installation
Fixing or gluing is not necessary. YOGA SPA ULTRA is easy to cut into shape and adapts to the ground.
